TEN PHYSICIANS TRIED.

Best Medical Skill Failed to Relieve Her.

MRS. BAILEY WAS FORCED TO WALK THE FLOOR ALL NIGHT—FINALLY A SIMPLE METHOD RESTORED HER TO HEALTH—THE CASE REPORTED—PROF. PIERCE'S DISCOVERY.

No class of society and no occupation is exempt from a great increase of sickness in the spring months.

And this year, as a result of the terrible epidemic of grip, finds people specially susceptible to the changing of the seasons. The blood is impoverished and impure, the nerves are weakened and unstrung, and all the physical organs seem to be "on a strike."

The general cry of the doctors is "Purify the blood."

At first the cure for the blood is by the use of medicine. But the most effective spring medicine is recommended by the doctors is "Purify the blood."

This pure remedy cures the worst form of blood diseases. It acts upon the system, giving strength to the muscles and creating normal action in the physical organs.

Mrs. L. S. Bailey, of West Leavenworth, N.Y., is a woman who, for the last twenty years, has been afflicted with a terrible disease. At first the cure for the blood is by the use of medicine. But the most effective spring medicine is recommended by the doctors is "Purify the blood."

The various patent medicines, such as

sarsaparilla, cataplasms, etc., that are advertised for the cure of this disease, are tested. Still further discouragement was the result.

Acting upon the theory that blood diseases are caused by weakness of the nervous system, I prescribed that standard nerve and brain food, Paine's Celery Compound. The result was almost miraculous. For the terrible disease that had so long resisted a treatment, yielded to this compound. Mrs. Bailey is now completely cured, with the exception of one spot on her arm, and that is fast going away.

A discovery was made. And a discovery

was made by the eminent Prof. Phelps, of Dartmouth. Paine's Celery Compound was the result, and it is today the best medicine for the cure of this disease, ensuring health, happiness, and long life.

It is the best medicine for the cure of this disease, ensuring health, happiness, and long life.

BREWER LOCALS.

Soreen doors are beginning to appear

about the city.

Mrs. John James is quite ill at her home

on Chamber street.

Mrs. Lewis Mott, of South Brewer,

left on the Lexington Saturday, for Boston.

Mr. Fred Goodwin, of Dedham, left on

the Lexington Saturday, for a trip to Boston.

Mr. George Fildell arrived on the steam-

er Katabdin Saturday afternoon from a

visit down river.

Mr. William Spurling left for the

steamer Cimbria Saturday morning, for a

visit in West Tremont and South West

Harbor.

Quite a number from this city will

probably attend the Easter Monday balls

to be given in different places about here

to-night.

Golden extensive woods fire was to be

seen at a point apparently not far from

Holden Center from some portions of the

city yesterday.

Miss Elma Clark left Saturday on the

train for Augusta to resume her teaching

after spending a vacation at her home in

this city.

Our gardeners who are fond of early

vegetables have commenced their plant-

ing, and are not eating the joy of eating

green peas, etc., of their own raising, in

June.

The city has been billed with the an-

ouncement of the engagement of Cleve-

land's Minnie at the Bangor Opera

House on Wednesday evening of this

week.

The schooner M. B. Mulhoney has been

hailed out on Steamer's marine railway

for repairs. This is the first vessel that

has been taken out on the railway this

season.

The South Brewer Christian Endeavor

Society held the "Sunrise" prayer meet-

ing yesterday morning which have been

continued, and it was a well attended and

interesting session.

Charles E. N. Brown, of this city,

who has recently opened a store at

Bucksport, will move his household effects

to that town at the first of May, and

will reside there in the future.

Mr. Thomas P. Hunsweil has com-

menced the rearing of the spars of the

schooner Mary Stewart which lies at Hol-

lins upper wharf. Considerable work

is to be done and it will be some time before

the vessel is again ready for service.

A seal was to be seen swimming about

in the waters of the Penobscot Bay

from the locality of the Waterman Ice

house yesterday afternoon was an object

of interest to many who live near there.

Mr. John S. Coy, of North Braddock,

arrived in the city Saturday, and yester-

day left with his wife, who has been

visiting at the home of Mr. Frank Whit-

more at South Brewer for about a week,

for his home.

Five oranges are being sold by Mr. M.

E. Maling, fifteen for twenty-five cents.

Belicious and is for sale at the

corner of the city. Some more of these

ten cent barrels of spruce gum are

in stock, and the rolls, home made tur-

ners, and fine pastry, are still specialties

at his establishment on Main Street.

The decoration at the First Congrega-

tional church yesterday were beautiful in

the extreme. A collection was taken by

the Y. P. C. C. connected with the

church, some of the eggs to defray the ex-

pense, and those in charge made the ar-

rangements of the floral display effective.

The work was done by Miss Annie Hardy

and the decorating committee.

"The date of the starting of the says at

Ayer's mill, at South Brewer, will depend

upon the time when the concern will be

able to get its logs down from the river

above, as they have none at the mill.

Rifling has already been commenced, and

if the weather continues to be dry, the

work will be finished in a short time.

Mr. E. Maling, of Main Street, Brewer,

has been selling a large quantity of

IS SPRING BE UTIFUL?

A Little Philosophy upon the Subject,

HOW MUD, DUST, COLD WINDS, AND FLEES

OF RUMBLE ANNOUNCE THE COMING OF

THE SEASON.

"Spring, beautiful spring!" How beau-

tiful it is! In the country there is mud,

rain, stagnant pools where melting snows

have accumulated, cold winds, a chilly at-

mosphere—in fact, everything that is dis-

agreeable and injurious to life. In the

city there are accumulations of the winter

in the streets, in the back yards, and

in the parks. They are exhaling poisons

every minute, and these poisons are blown

by the new winds into the home of the

millionaire, into the hotel of the squatter,

into the nostrils of every one. A promi-

nent doctor says: "The surest way of

communicating disease is by the dust

which is blown broadcast and inhaled by

every one, whether he ventures upon the

street or remains at home."

Spring is not beautiful until it has fully

come. Spring is dangerous spring time

more people than any other season, spring

causes more people to feel miserable than

all other seasons combined. What do peo-

ple do? Seek to endure it and tone up the

system. This is all very well, very philo-

sophical, but how foolishly people act

when they seek to tone up the system.

They take spring medicine, blood puri-

fers, nervines, and scores of other nostrums

which force of habit rather than efficiency

causes them to do it. It is all absurd.

Why not strike at the root of the trouble? Why

not realize that all these disagreeable and

dangerous things of spring would and

should be avoided by the use of a simple

gaseous of the body were in proper condition.

These two great organs are the kidneys

and liver, and the kidneys and liver are

positively kept in perfect condition by the

use of just the right thing. Read

what Dr. A. C. Clark, a well-known New

York physician, says:

"If we never know a case of spring

debility, spring fever, or any of the trou-

bles which arise during this season, which

has not been promptly and permanently

cured by the use of Warner's Safe Cure,

it is power that this time of year is wonder-

ful. I have seen women run down by

care and overwork; men whose vitality

was exhausted, and even young children

restored to perfect health through its

use."

Mr. M. M. Simpson, of Buckley, Mo.,

says: "My daughter who was once the

perfect of health and happiness, was for

years afflicted with kidney and liver

disease, complicated with scrofula, the
